

Hwange Diocesan Sacramental Database System - Unified User Manual (v3.0)

Welcome to the official help documentation for the Roman Catholic Diocese of Hwange. This guide covers all functional steps for accessing and using the system to manage canonical records.

1. Accessing the System

Before you can sign in, ensure the system is running by following the steps in the PREREQUISITES.md file (usually double-clicking LAUNCH_RMS.bat).

How to Sign In

- Open your web browser and navigate to `http://localhost:8000`.
- On the **Login** page:
 - Username:** Enter your assigned username (e.g., your surname or parish identifier).
 - Password:** Enter your secure password.
- Click **Login**.

[IMPORTANT]
If it is your first time logging in, the system will prompt you to change your temporary password for security reasons.

2. Navigation & Interface

The system uses a **Unified Dashboard** with a premium design language.

- Universal Search:** Use the search bar at the top (or ALT+S) to find any parishioner instantly.
- Oversight Cards:** Quick metrics at the top of the dashboard showing active faithful and recent sacraments.
- Sidebar:** Your main menu for Parishes, Clergy, Sacraments, and the Communication Hub.

3. The Canonical Handshake (Handover Protocol)

When a priest is reassigned, a digital handover process is initiated to ensure registry integrity:

- Outgoing Sign-Off:** The leaving priest must log into the **Handover Hub** and provide a status report on the registry.
- Inventory Check:** Physical registries must be verified against digital counts in the system.
- Succession Acceptance:** The new priest reviews the notes and "Accepts" the mission, transferring access rights.

4. Communication Hub

The **Communication Hub** is the official digital channel between your Mission and the Diocesan Administration.

- Tickets:** Every request is tracked for transparency.
- Categories:** Choose from Registry Correction, Dispensation Request, or General Query.
- Notifications:** Look for the bell icon for responses from the Chancery.

5. Troubleshooting & Support

- Forgotten Password:** Click "Forgot password?" on the login page to initiate a reset via email.
- Account Locked:** After 5 failed attempts, your account is locked for 15 minutes.
- Invalid Credentials:** Ensure Caps Lock is off and verify your username with the Information Office.

Support

For urgent canonical or technical assistance, contact the **Diocesan Information Office** or your local Parish System Administrator.

Ad Majorem Dei Gloriam
